General Comments

The Committee indicated their appreciation for the consultation given the circumstances and are open to being consulted in the future. The Committee discussed the challenges the industry has experienced due to disruptions related to COVID-19, including disputes with insurers regarding treatment and economic pressure on the industry. The Committee expressed support for FSRA's recent guidance on [Statutory Accident Benefits claims](#) as a step in the right direction.

Feedback on F2019-20 Priorities and Outlook for F2020-21

The Committee understood the reasons for delaying some initiatives involving consultations that were proposed in FSRA's 2020-21 Annual Business Plan, due to disruptions related to COVID-19. They were supportive of FSRA's burden reduction efforts, including the deadline extension for filing the 2019 Annual Information Return and regulatory fee.

The Committee provided feedback on FSRA's review of inherited guidance. They recognized that much work has been completed to evaluate and reduce inherited guidance, and they would like to see progress continue. In particular, the Committee expressed support for increasing hourly rates set out in the Professional Services Guideline.
