## Interest assumptions used in the table on the following page:

- (1) 6.00%, which represents the <u>greater</u> of the CANSIM B14013 rate for November 2003 (5.24%) and 6.00% for the first 15 years, and
- (2) 6.00% for the years remaining to the end of the year in which the LIF owner attains 90 years of age.
  (Assumption to age 90 is for the purpose of maximum payment calculation only. The balance of a LIF must be used to purchase a life annuity by the end of the year in which the LIF owner attains 80 years of age.)

Percentages shown must be prorated for the initial fiscal year if less than twelve months. Part of a month is treated as a full month.
